"If you want a convincing account of just how deep the shift in our new axial age is and must be, look no further than this brilliant book by Charles Eisenstein, one of the deepest integrative thinkers active today."

Sacred Economics with Charles Eisenstein - A Short Film

"We've all been given a gift, the gift of life.
What we do with our lives is our gift back."

About the Book

Sacred Economics traces the history of money from ancient gift economies to modern capitalism, revealing how the money system has contributed to alienation, competition, and scarcity, destroyed community, and necessitated endless growth.

Today, these trends have reached their extreme - but in the wake of their collapse, we may find great opportunity to transition to a more connected, ecological, and sustainable way of being.

The More Beautiful World Our Hearts Know Is Possible

In a time of social and ecological crisis, what can we as individuals do to make the world a better place? This inspirational and thought-provoking book serves as an empowering antidote to the cynicism, frustration, paralysis, and overwhelm so many of us are feeling, replacing it with a grounding reminder of what's true: we are all connected, and our small, personal choices bear unsuspected transformational power. By fully embracing and practicing this principle of interconnectedness—called interbeing—we become more effective agents of change and have a stronger positive influence on the world.

Throughout the book, Eisenstein relates real-life stories showing how small, individual acts of courage, kindness, and self-trust can change our culture's guiding narrative of separation, which, he shows, has generated the present planetary crisis. He brings to conscious awareness a deep wisdom we all innately know: until we get our selves in order, any action we take—no matter how good our intentions—will ultimately be wrongheaded and wronghearted. Above all, Eisenstein invites us to embrace a radically different understanding of cause and effect, sounding a clarion call to surrender our old worldview of separation, so that we can finally create the more beautiful world our hearts know is possible.
